**Arrow boosts Dutch team with the appointment of Martijn Adelaar**

Arrow Capital Partners, the specialist investor, developer and manager of real estate in Europe and Asia-Pacific, has appointed Martijn Adelaar as Senior Asset Manager in the Benelux team.

Reporting to Martien van Deursen, the Head of Benelux, Martijn will be based in the Amsterdam office and will work with the rest of the team to manage Arrow's growing portfolio of logistics development projects and properties in the Benelux, which is now in excess of €400 million.

Prior to joining Arrow, he was an asset manager at Blackstone's last-mile logistics platform Mileway, where he was responsible for the commercial asset management of more than €300 million of properties. Among his previous roles, he was also an asset manager at M7 Real Estate and at Annexum.

**Commenting on the appointment, Martien van Deursen, Head of Benelux at Arrow Capital Partners, said:** "Following a sustained period of growth across the Benelux, we're boosting our platform as we continue to expand our acquisition pipeline and increase our asset management capacity.

"Despite the economic headwinds, we're continuing to bring forward developments to feed the significant and persistent supply and demand imbalance between occupiers looking for sustainable last-mile logistics and available stock across the region."

A specialist investor, developer and manager of real estate, Arrow Capital Partners targets equity and debt opportunities, specialising in cross-border transactions where it can use its platform and balance sheet to invest with US and Asia-Pacific investors into Europe, as well as European and US investors into the Asia-Pacific region. Arrow has a team of 60 globally based out of 12 countries.
